

SIERA VHF Net Control Preamble

Revised: Dec 2019

Good evening, this is [*your name and call-sign*], Net Control station for this Tuesday evening SIERA net. This net is sponsored by the SIERRA Intermountain Emergency Radio Association, in the Carson Valley, Nevada. Our net meets every Tuesday evening on the NV7CV repeater at 1930 hours local time. Our website can be accessed at www.cvhams.com, where you will find membership and contact information. Our mailing address is P.O. Box 2348 in Minden, Nevada 89423. **(Pause)**

SIERA schedules a monthly get together and General Meeting on the first Saturday of the month. All members, guests, and interested parties are welcome. We also enjoy each other's company on the fourth Saturday of the month with our social hour Breakfasts. Check our website for times, location, and future programs and for VE testing schedules. **(Pause)**

SIERA's VE Team offers ham license exams and complete information on how to get started and stay in touch. Exams are scheduled the 3rd Saturday of odd months. Start time is 9:00 AM. Bring \$15, your ID and copy of your current license if you have one. For information contact Greg Moore, KG7D@arrl.net. **(Pause)**

This will be a directed net, and all stations are asked to stand by unless called by net control. However, emergency or priority traffic should interrupt the net at any time. We'll now pause for any announcements and requests for contacts. Come now please to be recognized. [*Give ample time for announcements to be made*] (HF net control may announce the 8:00 pm net welcoming all participants) **(Pause)**

Thank you for those announcements. Please stand by to repeat them at the end of roll call. We call SIERA members who regularly check in. Any stations we may miss are asked to check in at the end of formal roll. Visitors will be invited after formal roll call. **Call roll.**

That is the end of the roll call as I have it. Have I missed any members? If so, please call now.

Visitors are always welcome to this net. Please announce yourselves with your name, call-sign and current location. Call now. **(Welcome and thank them.)**

Now it's swap time --does anyone have any radio items to swap, sell or buy? **(Pause)**

Now we'll take a moment to repeat the earlier announcements. **(Pause)**

Does anyone have anything else to present to us at this time? **(Pause)**

Thank you for checking in this evening. We are returning the NV7CV to normal amateur use.

Good evening to all. This is [*your name and call*] - clear. (Stay a minute for other traffic.)
